

# Supermarket

# Sweep

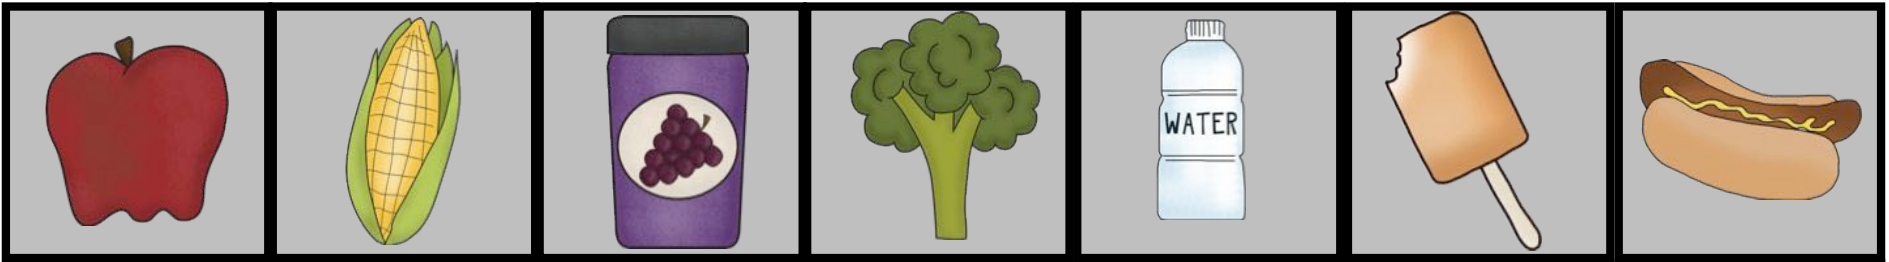

The object of *Supermarket Sweep* is to collect all of the food items on your shopping list.

Each player receives a shopping list. Roll a die and travel around the supermarket aisles. When landing on a food item, check to see if it is on your list. If it is, you may check this food off on your list. If it is not, stay on the space and wait for your next turn.

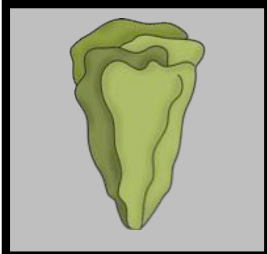

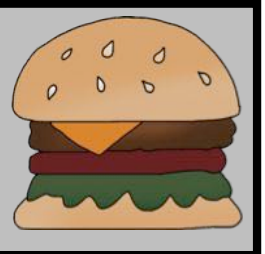

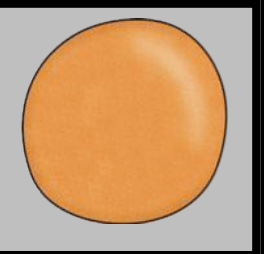

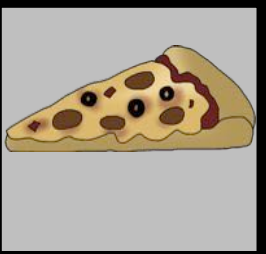

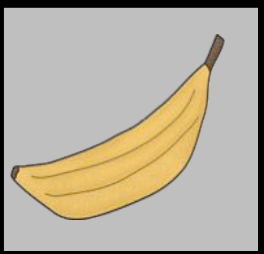

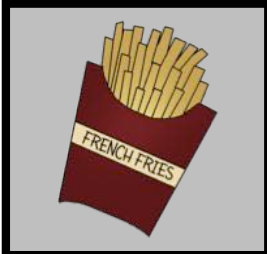

The first player to collect all of their food items is the winner! If any player reaches the end of the supermarket aisle, they may turn around and go back in the other direction.
