

# Subtraction

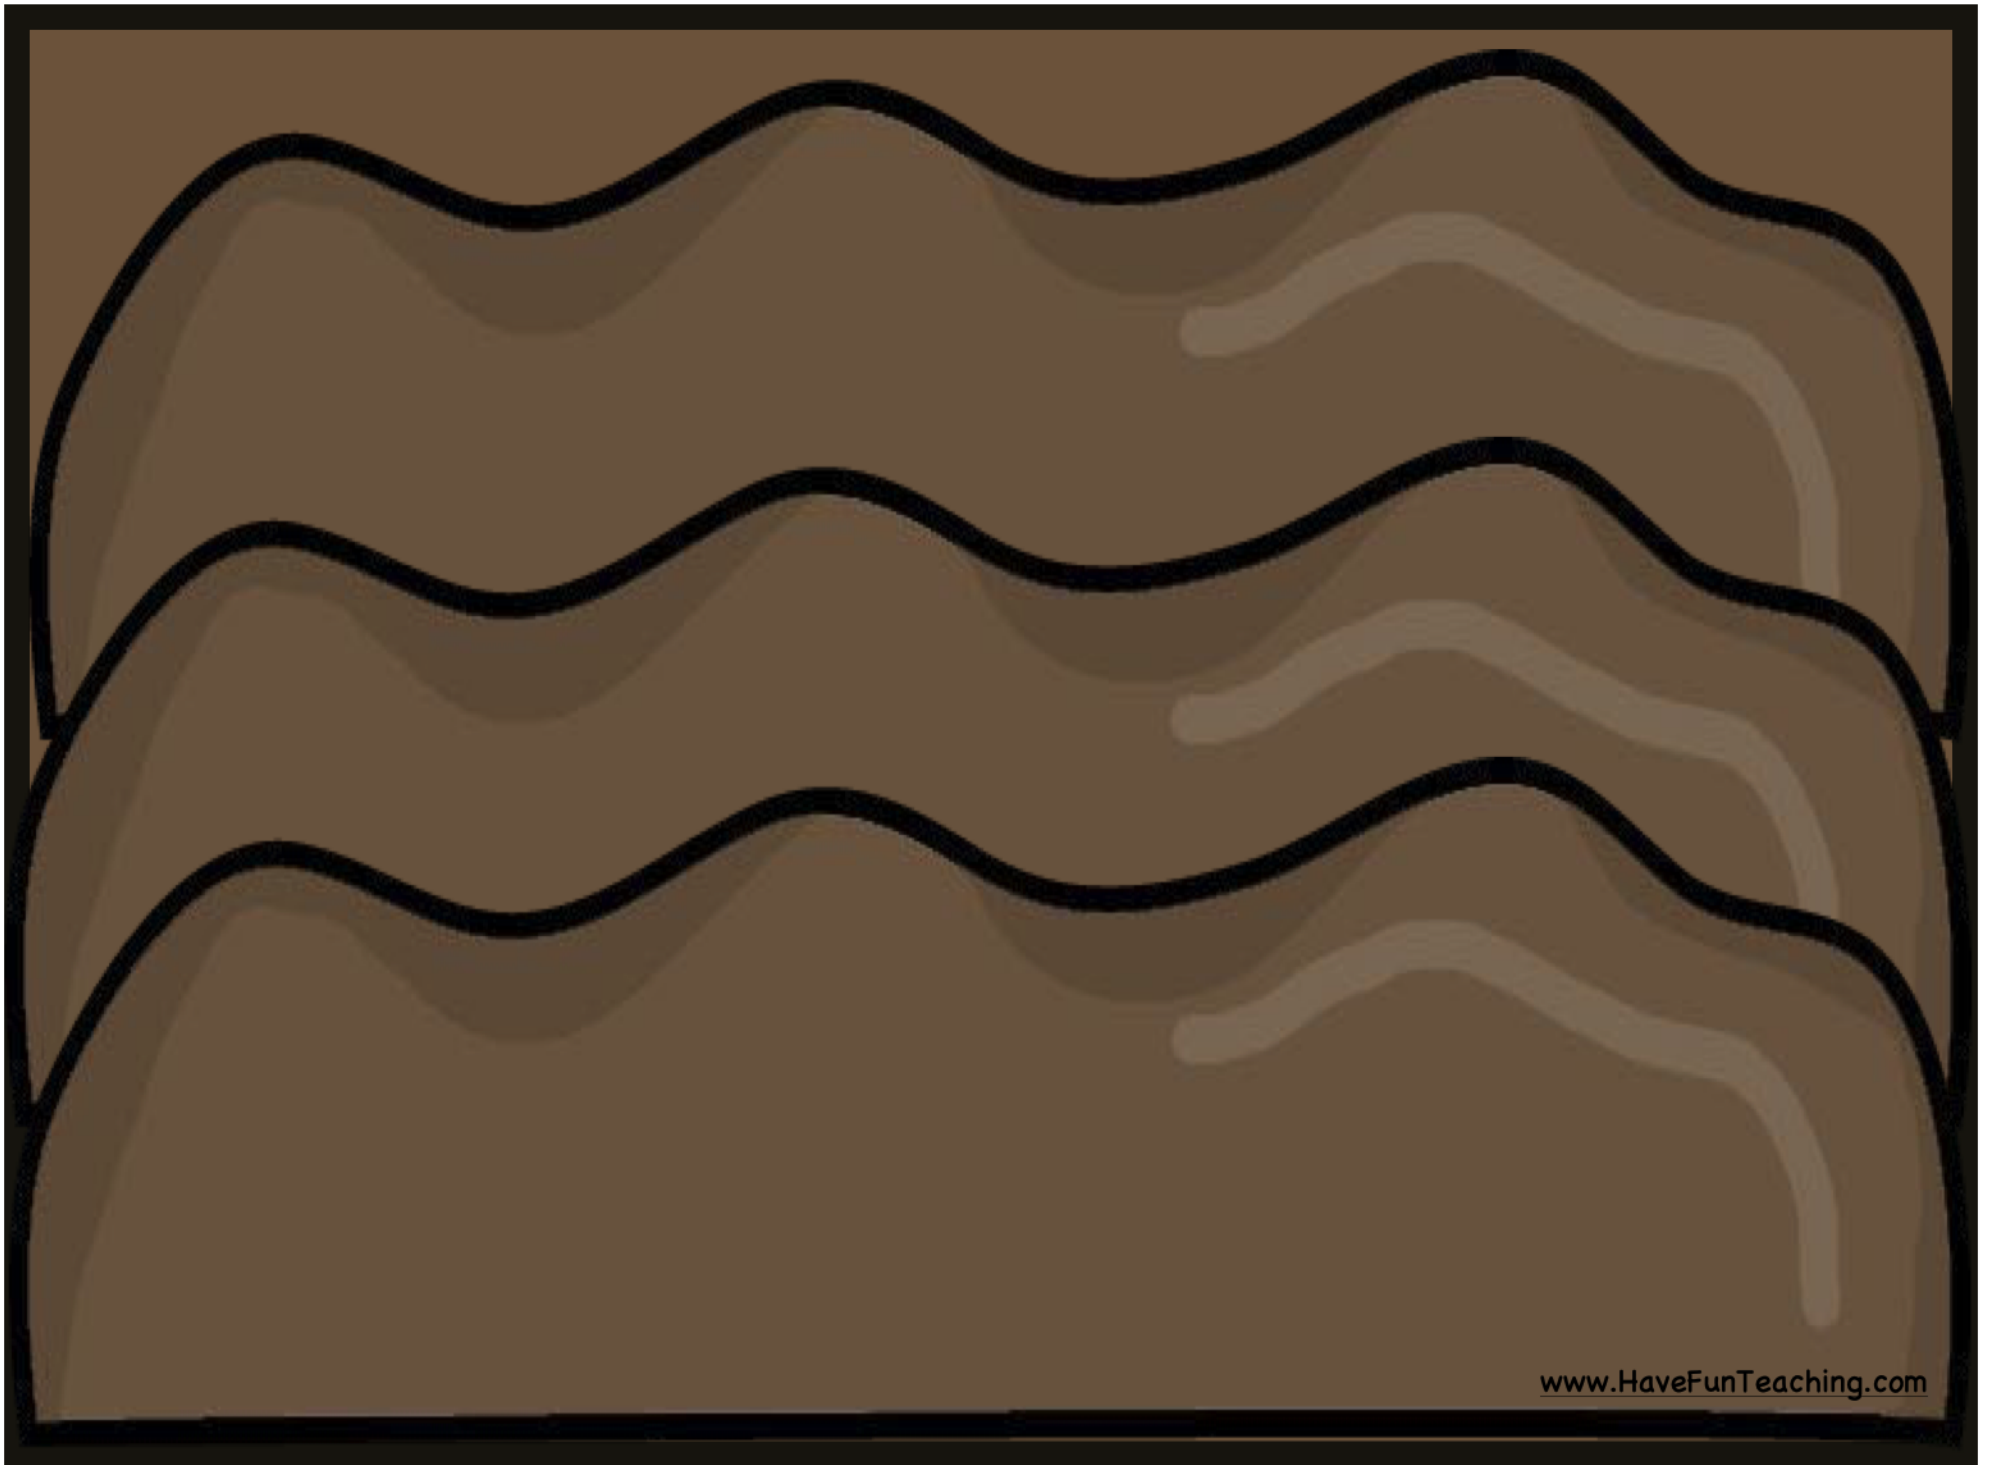

## in the Garden

Read and solve subtraction sentences by picking vegetables in the garden! Cut apart subtraction sentence cards and place them at the math center. Each student receives a garden subtraction mat, vegetable manipulatives and a recording sheet.

Select a subtraction sentence card. Use the vegetable manipulative that matches the one on the card. Example:  $5 - 4 = \underline{\quad}$ . Plant 5 carrots on the garden mat. Then, take away 4 carrots by 'picking' them out of the garden. To solve, count how many are left in the garden.

When you are finished performing the subtraction sentence, record the problem and answer on the worksheet provided.

$$5 - 5 = \underline{\quad}$$

Name \_\_\_\_\_

**Directions:** Record the subtraction sentence you selected during the Garden Subtraction game. Find the answer and write it on the line.

_____ - _____ = _____	_____ - _____ = _____
_____ - _____ = _____	_____ - _____ = _____
_____ - _____ = _____	_____ - _____ = _____
_____ - _____ = _____	_____ - _____ = _____
_____ - _____ = _____	_____ - _____ = _____
