

# Stone Soup

Play the Stone Soup game to practice identifying and classifying fruits and vegetables.

**Version 1:** Place a deck of fruit and vegetable cards on the soup pot game board. Deal another deck of cards out between players. Players take turns flipping over a card from the pile. The player with the matching fruit or vegetable adds it to the soup. The first player to get rid of all their cards is the winner!

**Version 2:** Deal a deck of cards out between players. Players take turn rolling the die. Depending on what the die lands on, a player must add a fruit or vegetable to the soup. If a player does not have that kind of card, their turn is skipped. The first player to get rid of all their cards is the winner!

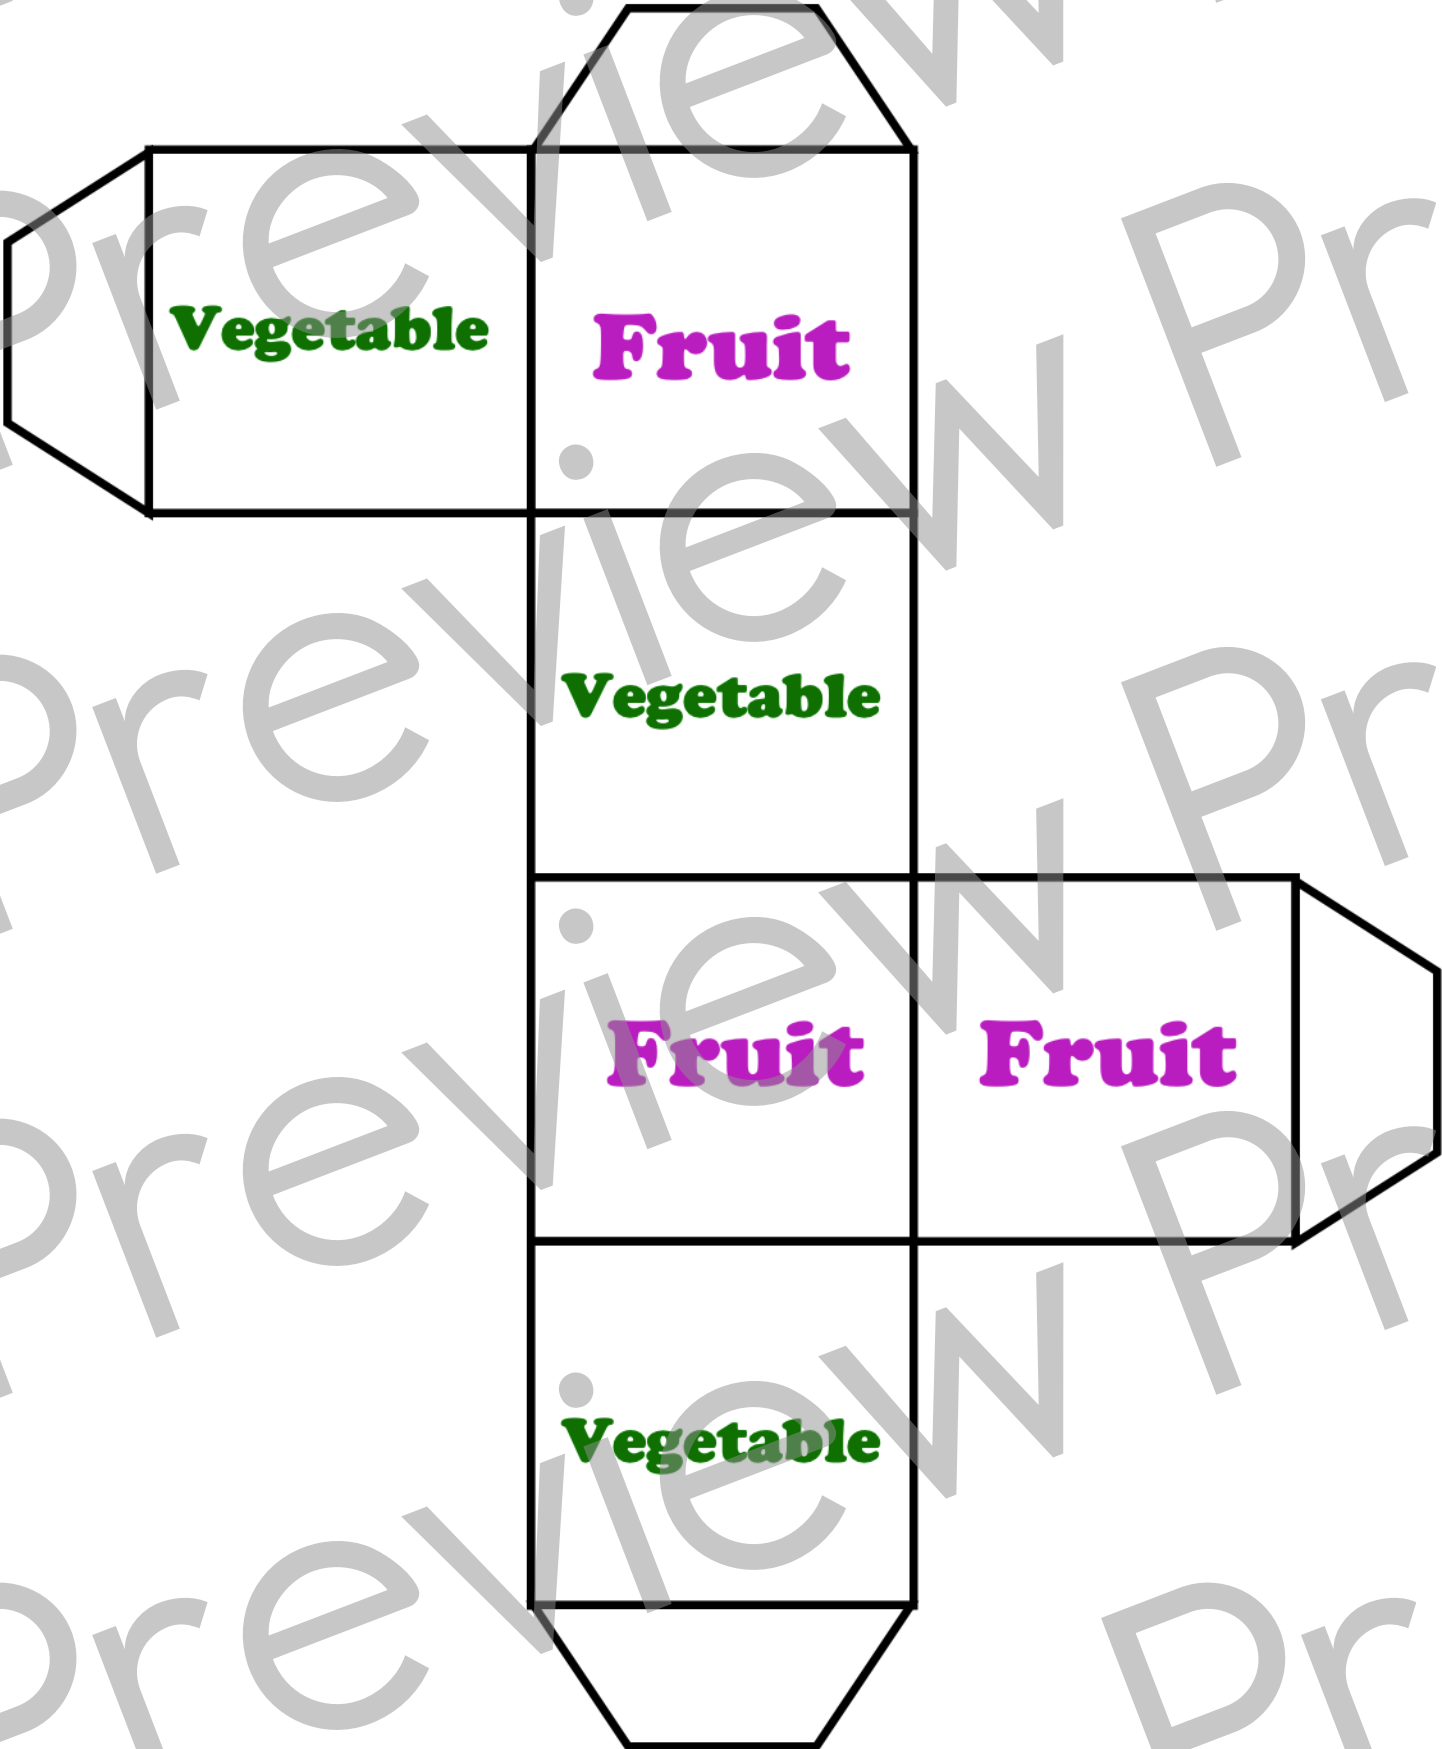

**Use the fruit and vegetable sorting mat at the end to classify cards into groups.**

**Place pile of cards  
here.**

**Draw a card to find  
out what needs to be  
added to the soup!**
