Parts of a Flower

Use these activities to learn about the parts of a flower and the sequence of a flower's growth.

Sequencing Activity

Use the five sequencing cards and put them in order starting with planting a seed to a flower being grown. After sequencing, draw the sequence on the worksheet provided.

Roll-a-Flower

Become familiar with the parts of a flower by rolling a die and building a flower. Use the "Roll-a-Flower" dice poster as the guide. Each person gets a Roll-A-Flower mat and flower parts. Roll the die, and after landing on a number, place the corresponding flower part on your mat. Race a partner to see who can build a full flower the quickest.

Label-a-Flower

Label the flower using the label mat and word cards. Then, draw your own flower and label its parts on the worksheet provided.
