

Don't Be Afraid of the Dark!

Learning about Things That Give Light

Play this Monster Board Game to face your fears of the dark and identify objects that give light!

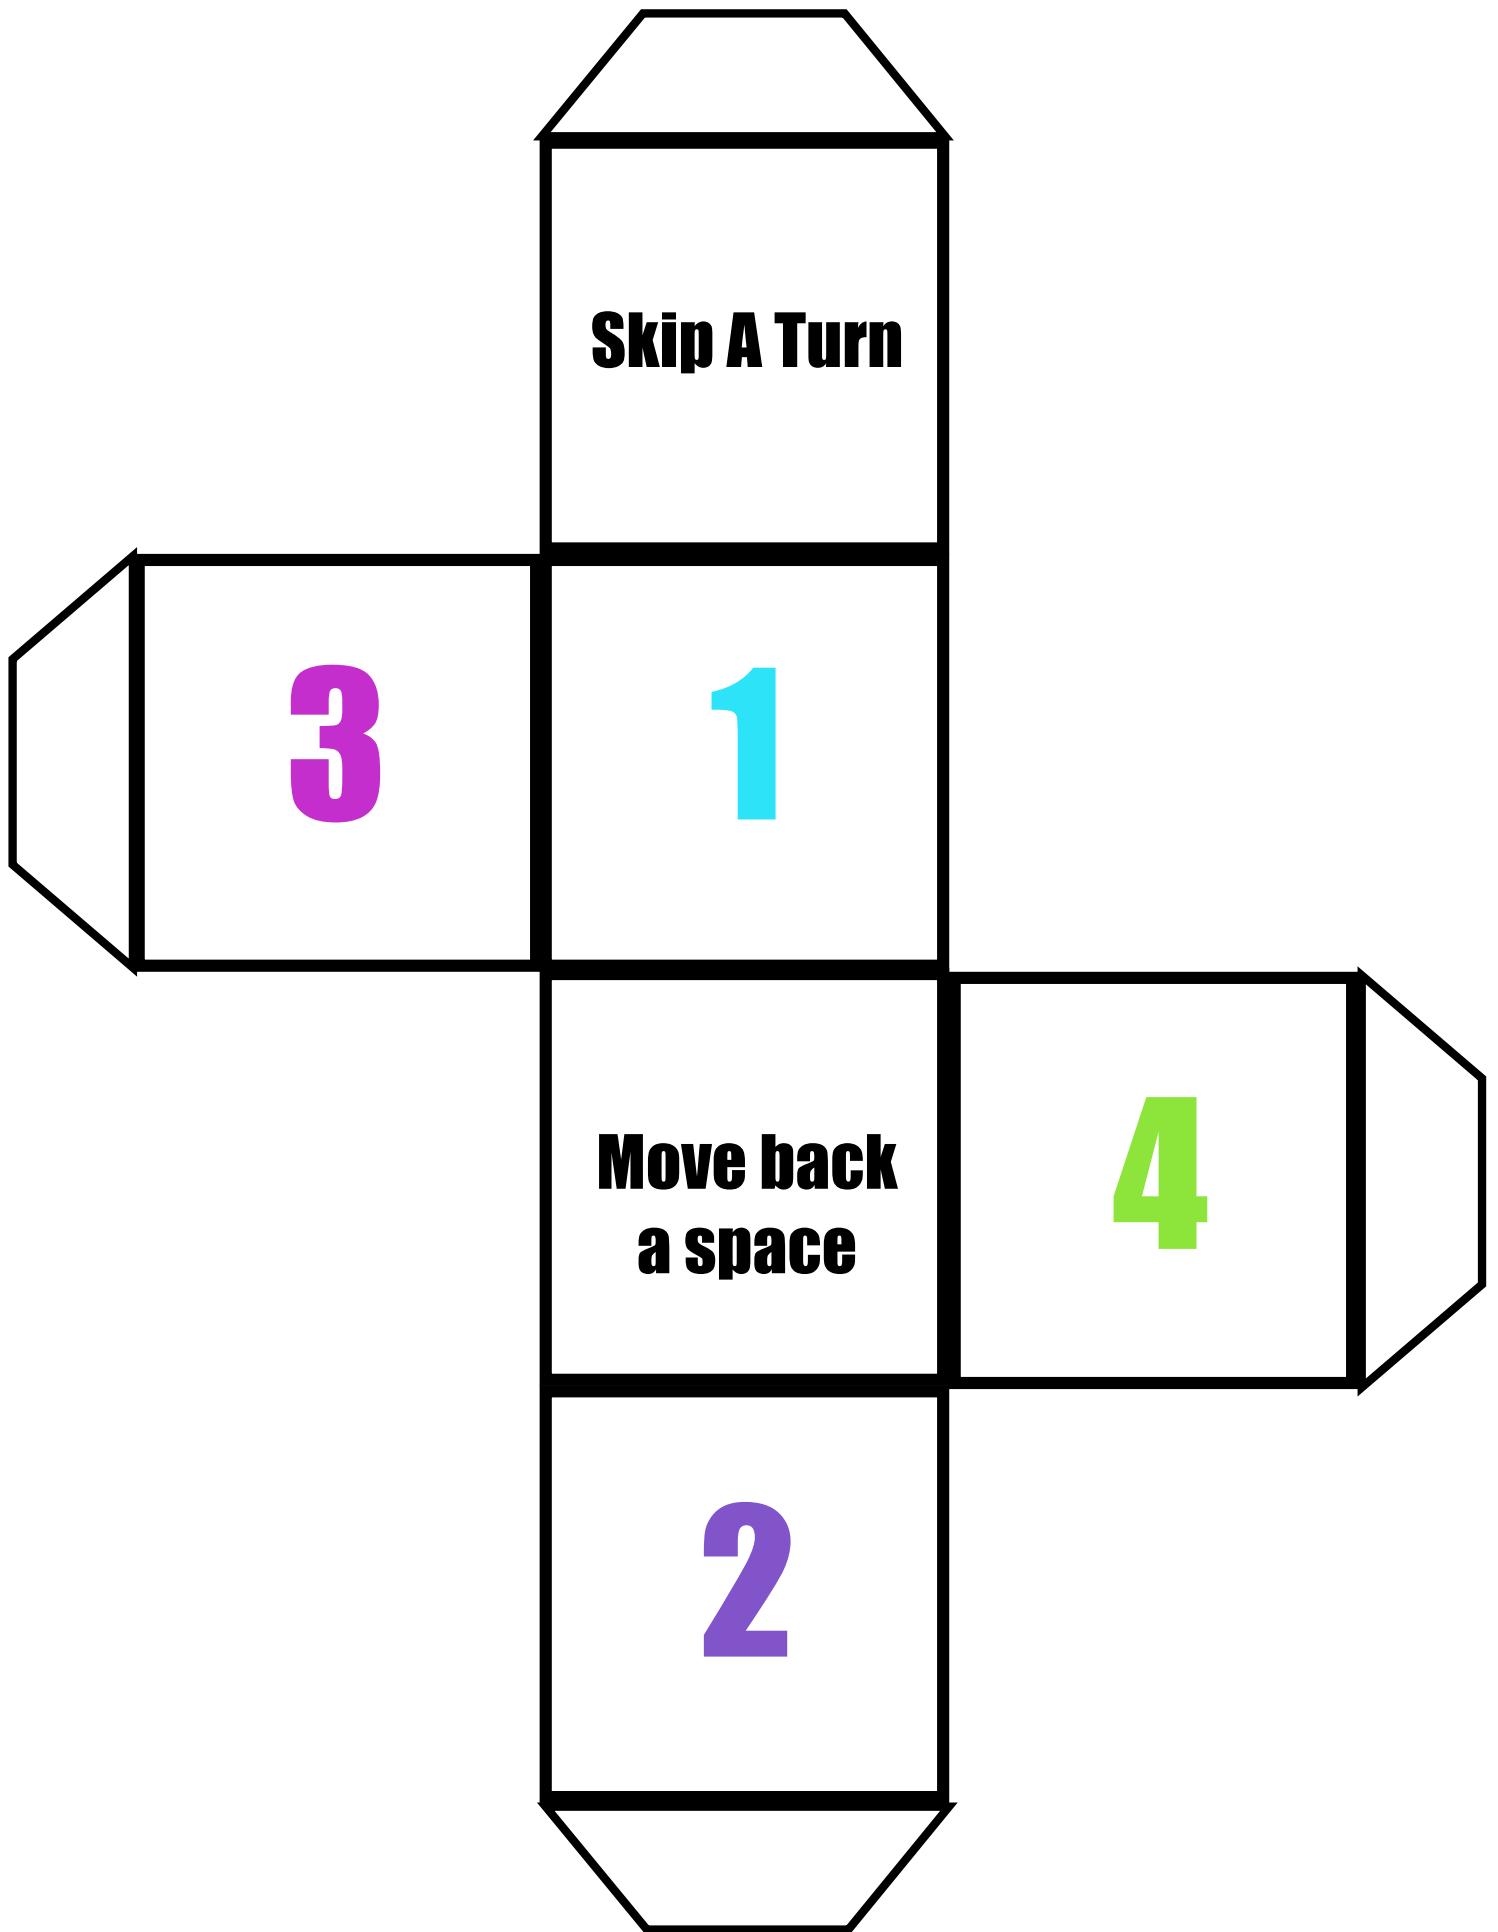

To make it through the board game, you must find objects that give off light and keep the monsters away. Attach the two game board pages together. Roll the die and move that many squares. Pick up a picture card and identify whether the object gives off light or not. If yes, you can stay on your square. If not, move backwards a space. If you pick up an OH NO! monster card, you must go all the way back to the beginning!

The first player to finish the game is the winner!

Start

A maze-like grid of black and yellow squares. The grid is composed of several rows and columns of squares. The top row has six squares: black, yellow, black, black, yellow, black. The second row is a solid black bar. The third row has four squares: black, yellow, yellow, black. The fourth row has two squares: black, yellow. The fifth row has four squares: black, yellow, black, black. The sixth row has two squares: black, black. The seventh row has seven squares: yellow, black, black, yellow, black, yellow, yellow. The path starts at the 'Start' sign and leads through the yellow squares.
