

# Transportation

## Activity One - Modes of Transportation Sort

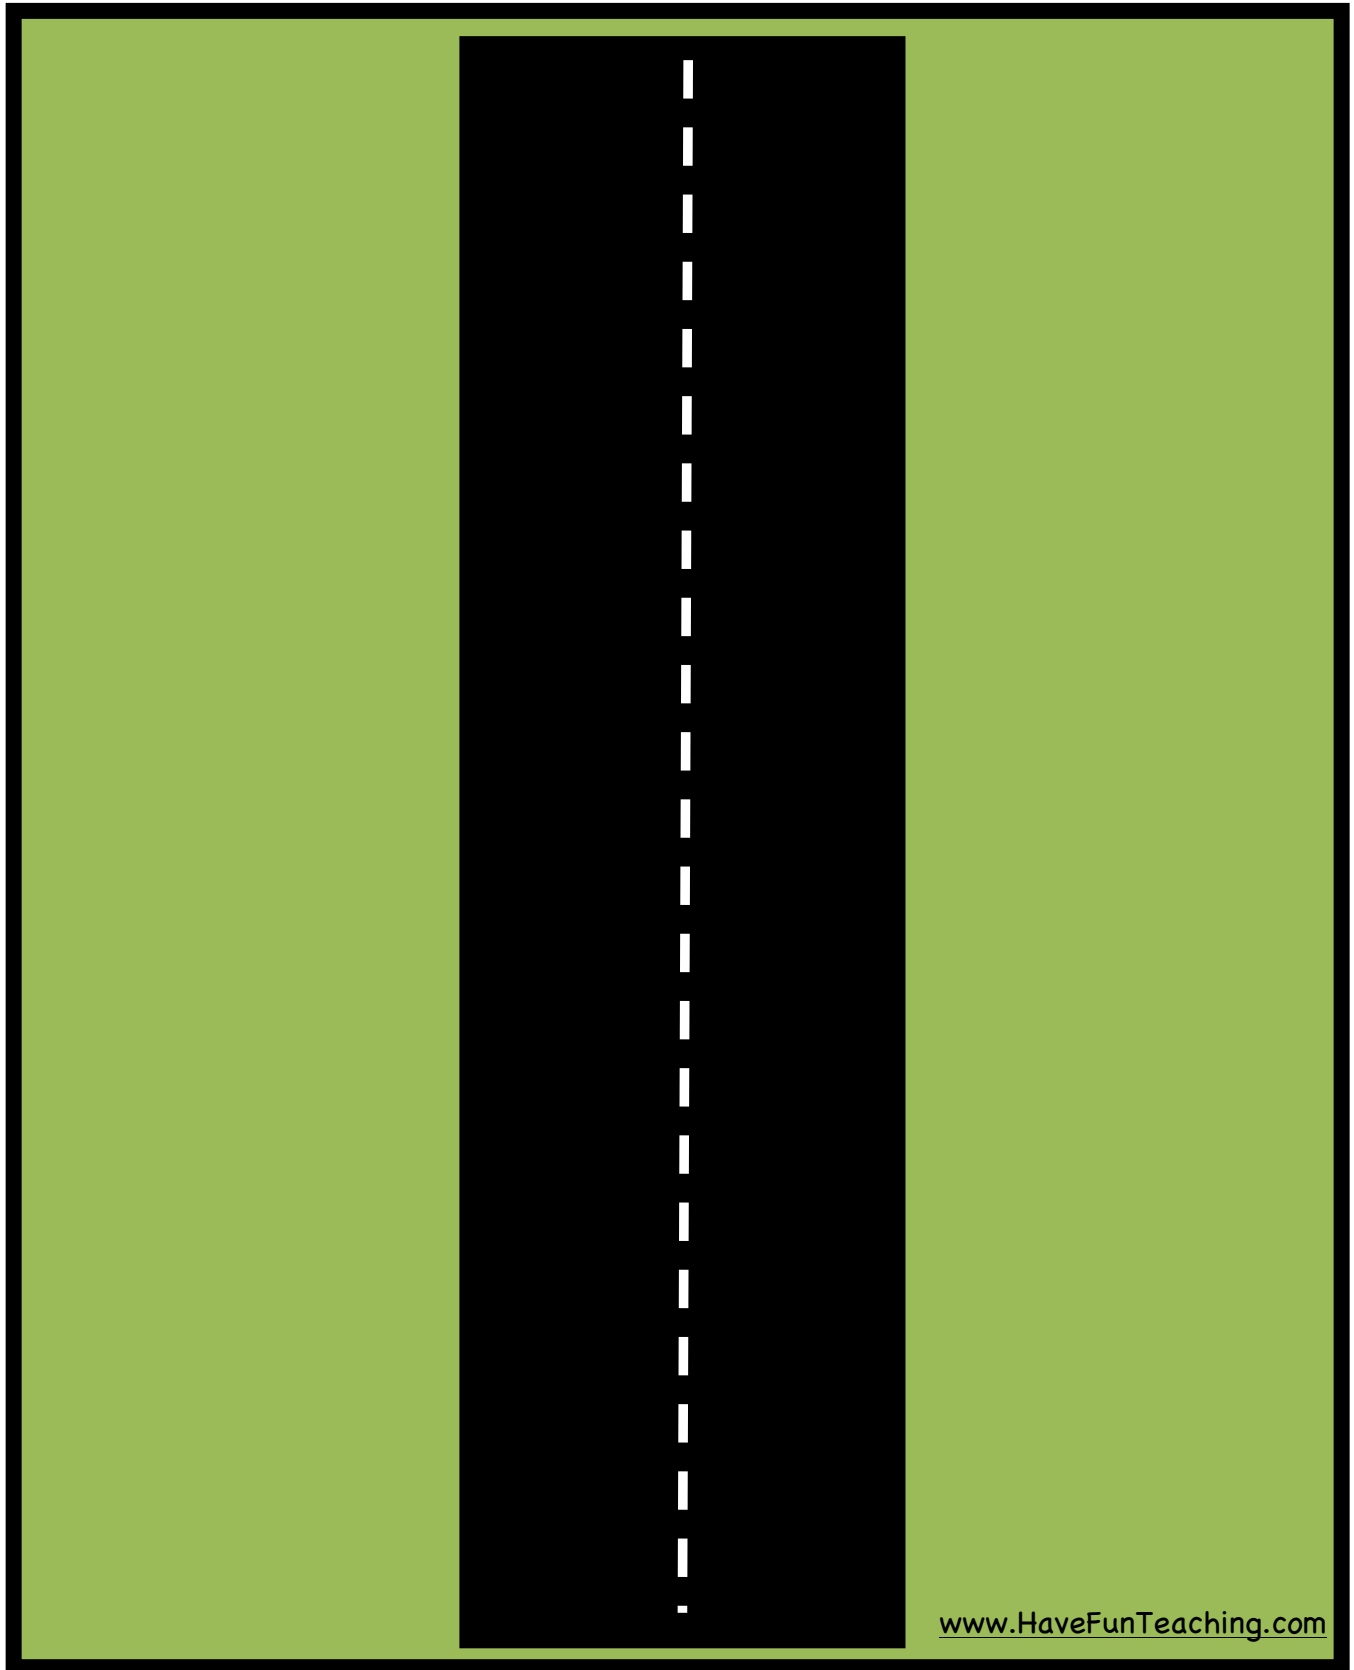

Use the four sorting mats and transportation picture cards for this activity. Sort the modes of transportation cards onto one of four mats to identify whether it travels *on the road, on tracks, in the air, or on water*.

## Activity Two - Modes of Transportation Match

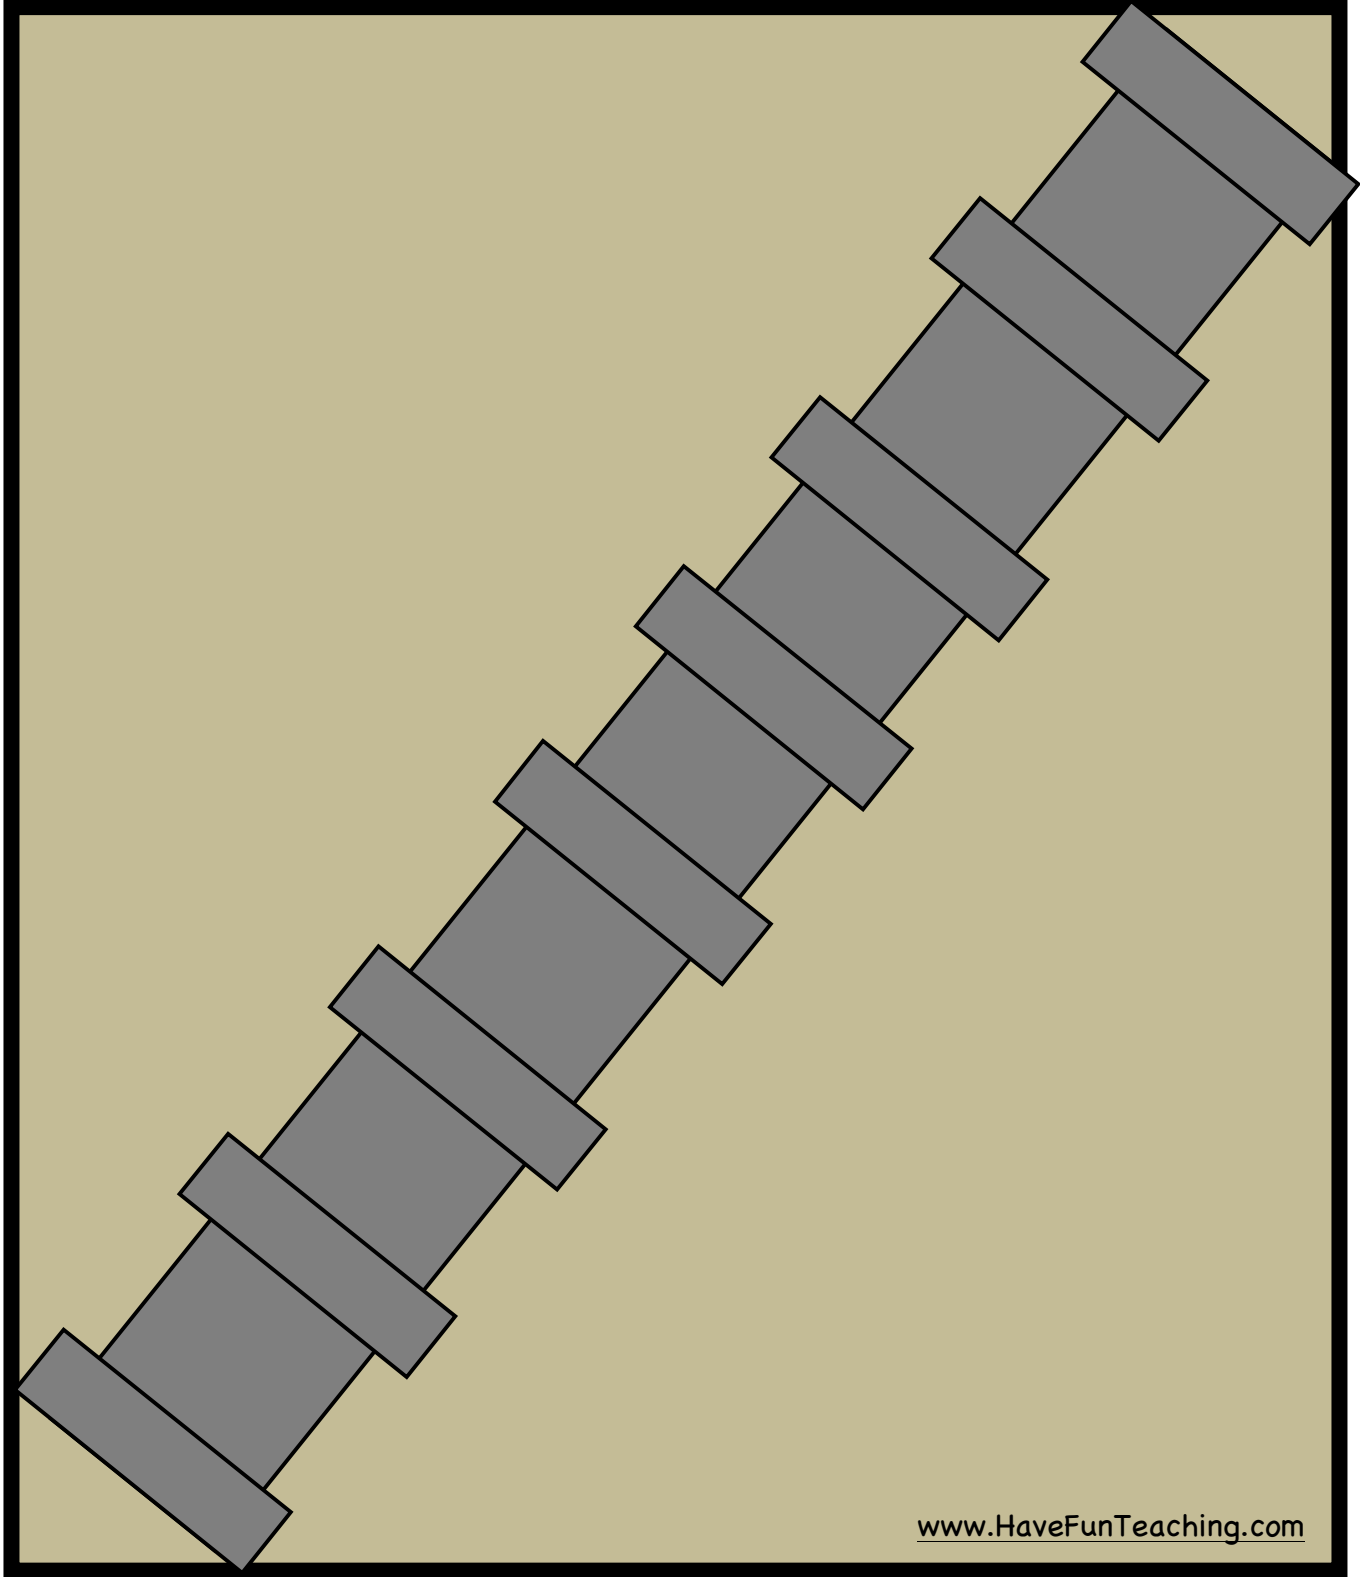

Play this match game to match modes of transportation to how they travel (e.g. picture of the sky and airplane). Mix up the cards and place them face down. Take turns flipping over two cards to try and find a match.

The player with the most matched pairs is the winner.

# Land - Road

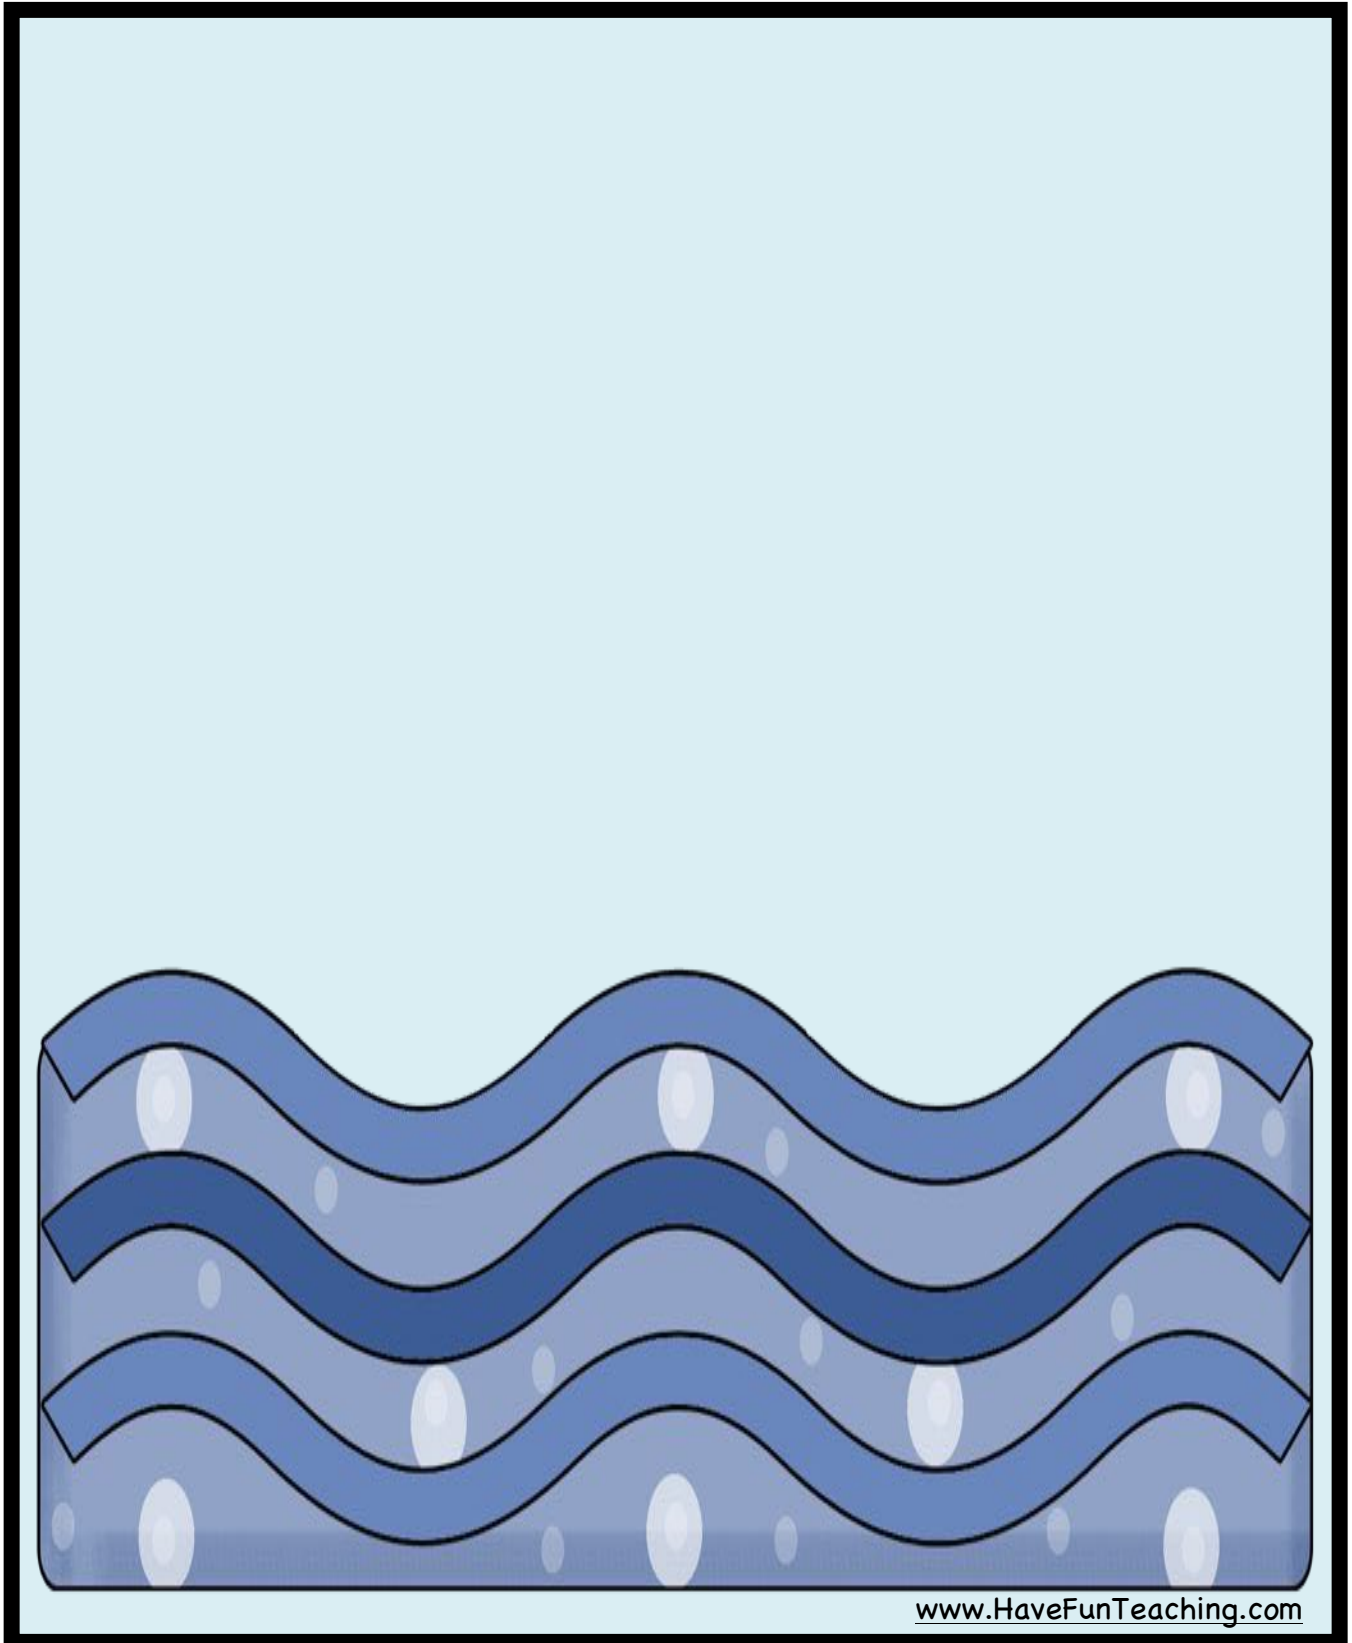

# Land - Tracks

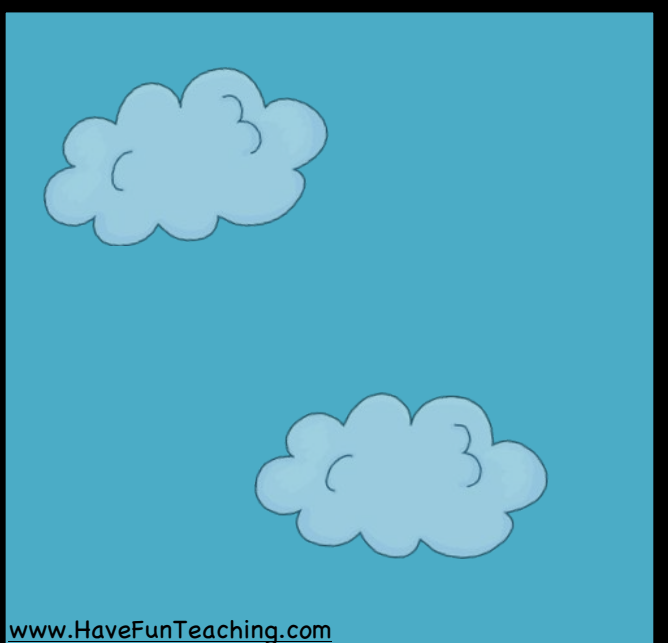

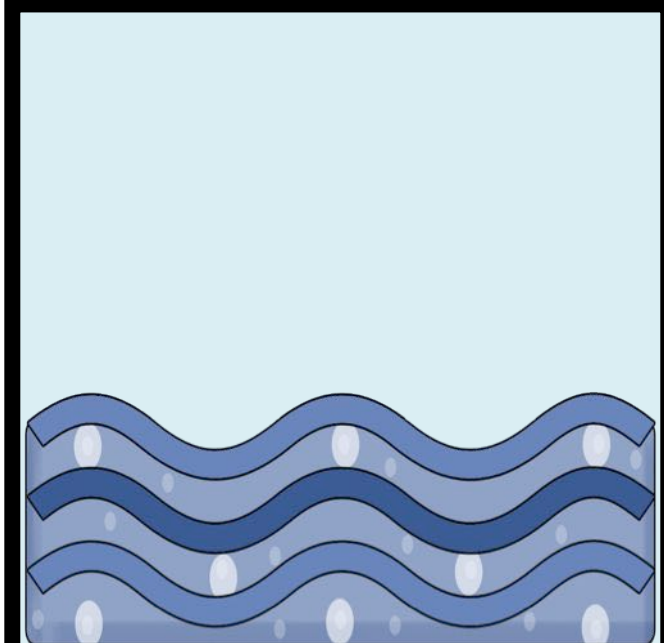

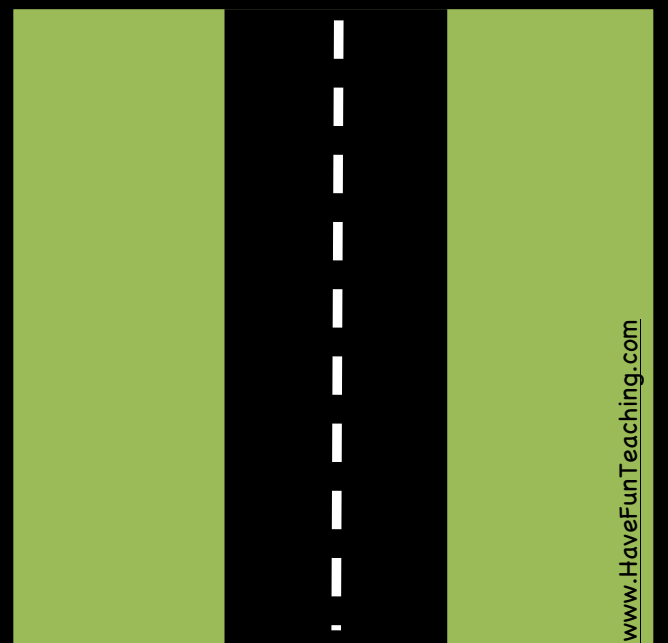

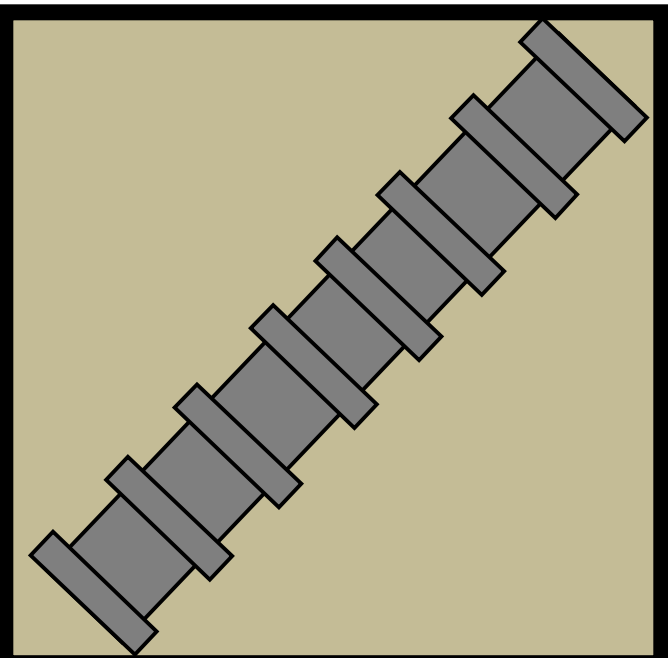

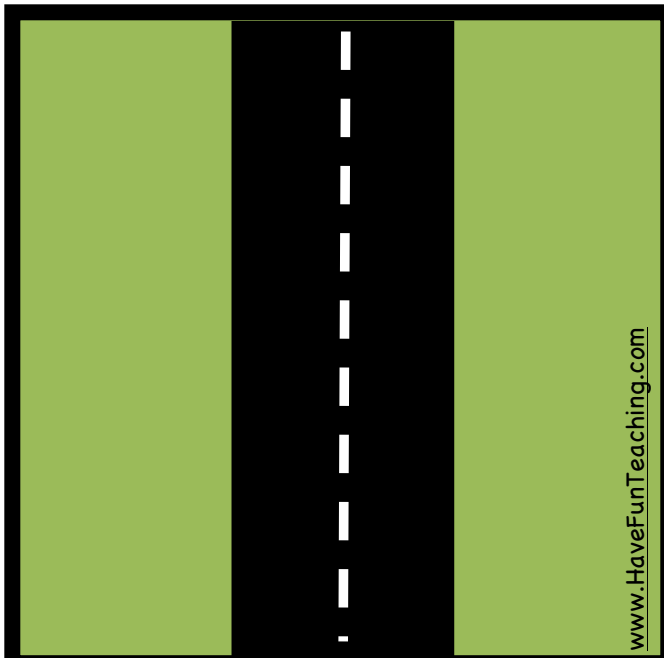

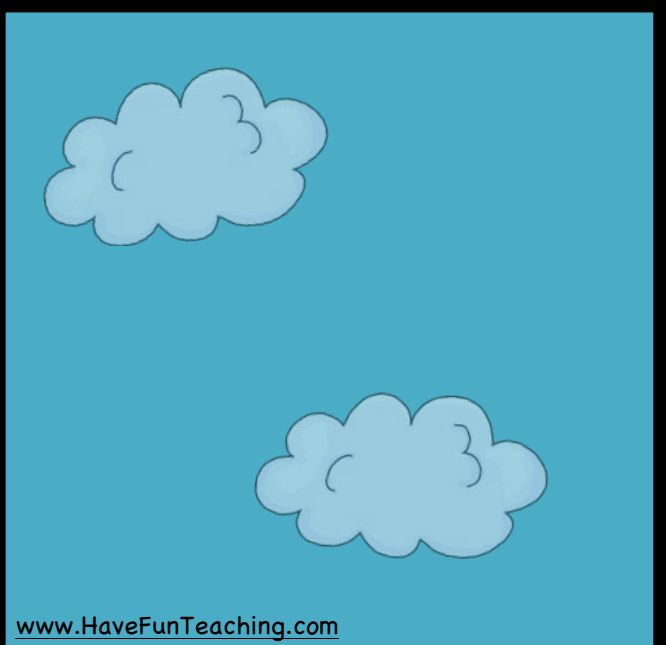

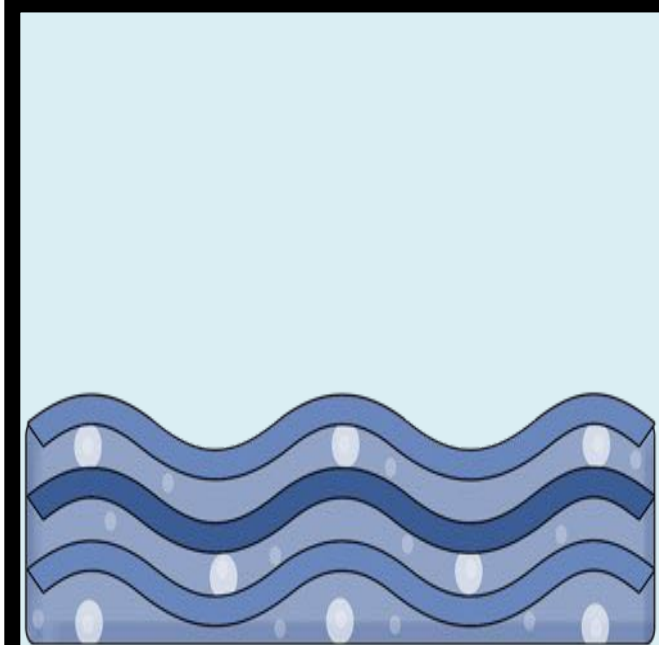

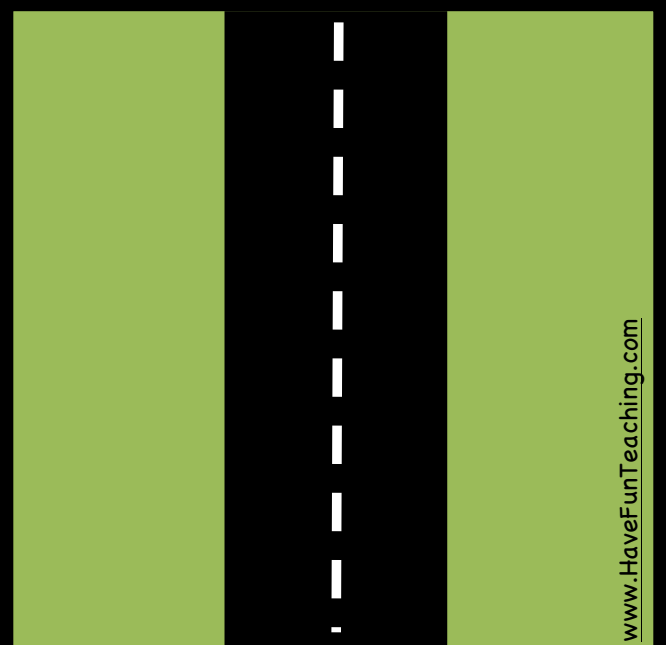

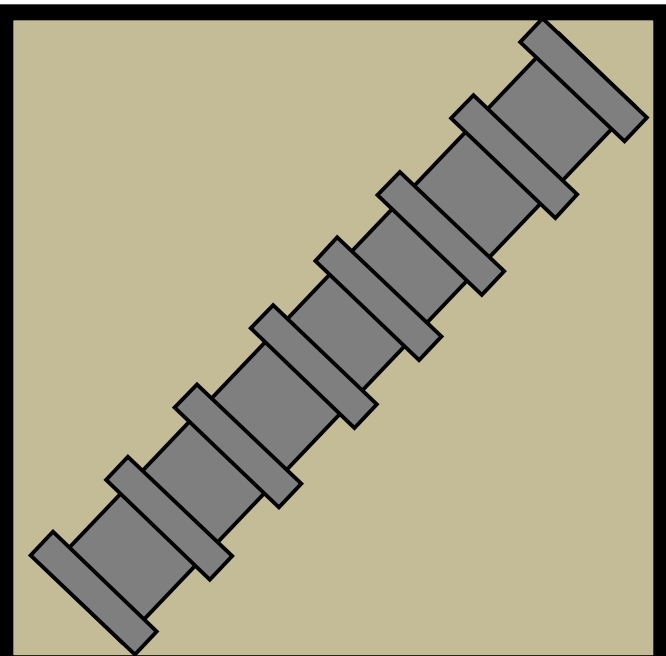

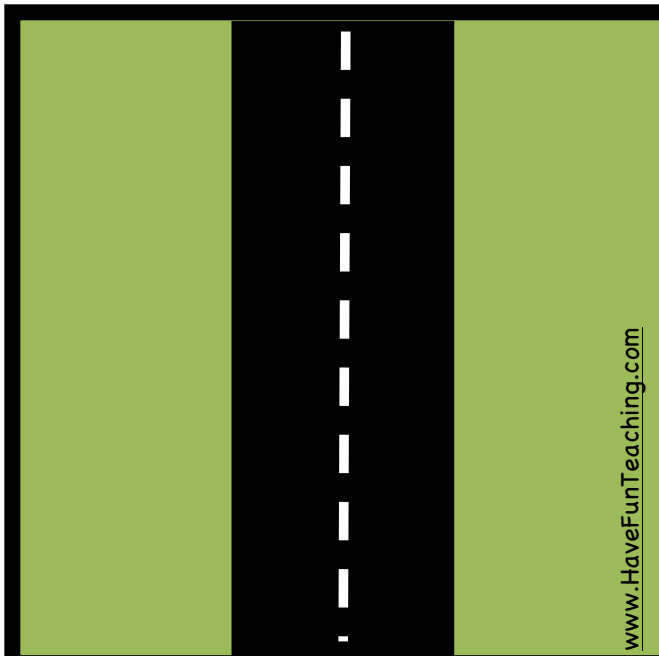

# Air

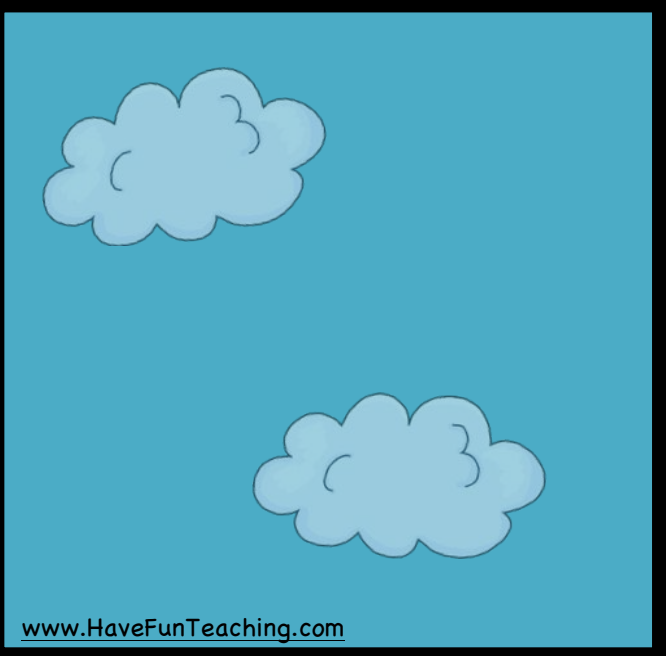

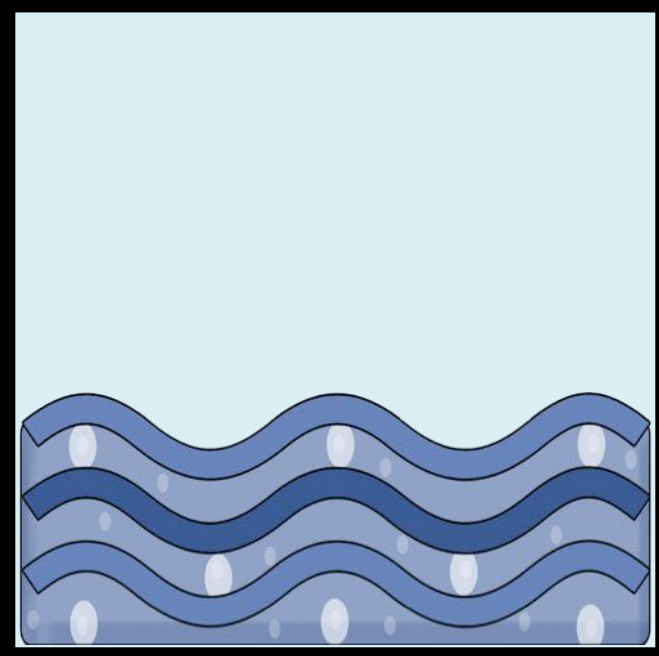

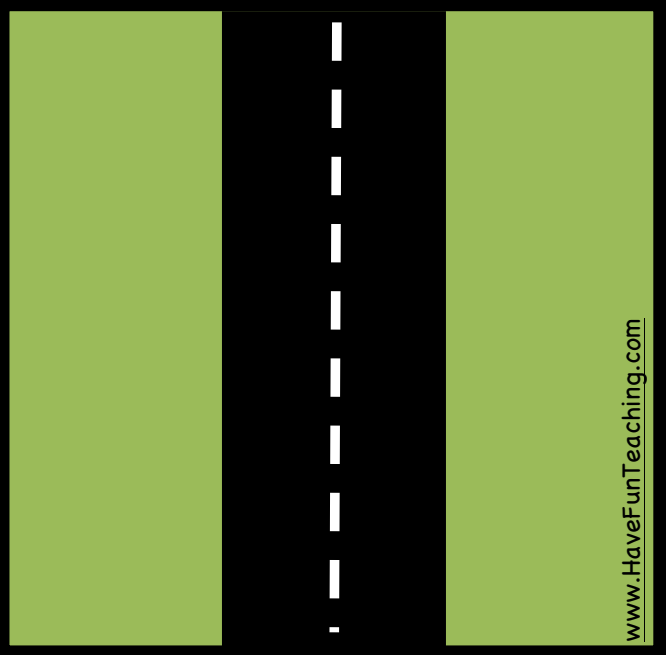

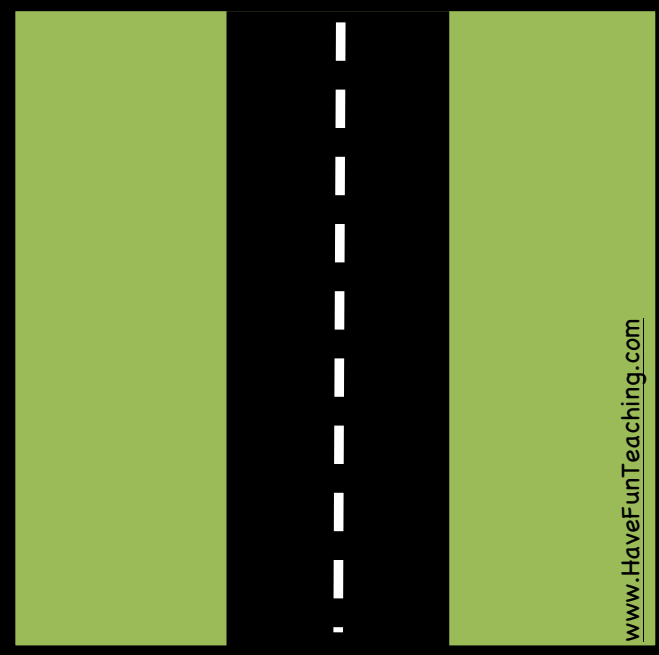

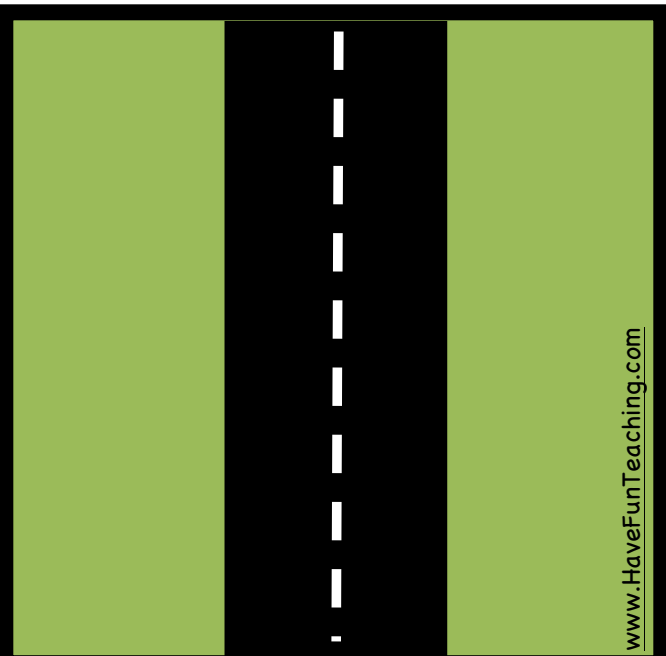

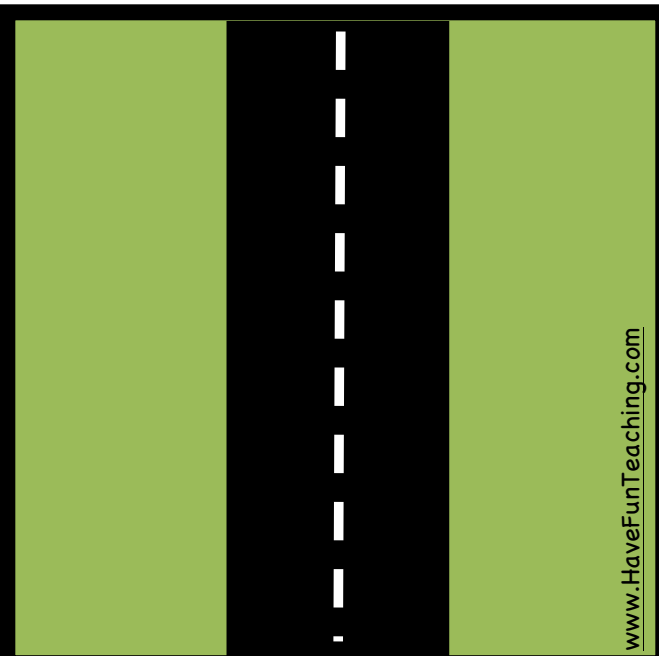

# Water
