

Where can I see Rectangles?

Robby was hunting the elusive rectangle!

This time in math class, he was given the assignment of finding rectangles. Honestly, he knew it would be a breeze.

He could have been given a difficult shape, like a decagon or something. He got just about the easiest shape possible!

His textbook was a rectangle.

So was just about every other book ever made.

The top of his desk was a rectangle.

His pencil case was a rectangle.

The chalk board and white boards were rectangles.

The ceiling tiles were rectangles.

The windows were sets of rectangles.

Whew!

Robby hadn't even gotten out of his seat yet, and he'd already found lots.

In the halls, the lockers were rectangles.

The walls themselves were loooooonnnnggg rectangles.

The doors were rectangles, and so were the posters on the walls.

The tables at lunch were rectangles.

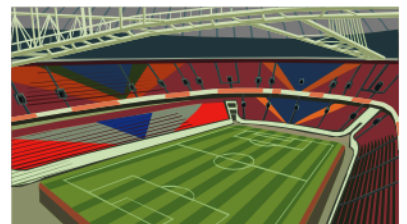

The computer screens in computer class were rectangles.

The basketball court and the soccer field at gym class were, too.

Art class had canvases to paint on that were rectangles.

Every class and every room had rectangles.

They'd taken over Robby's brain!

Where can I see Rectangles?

Use the information in the story to answer the questions below.

1. TRUE OR FALSE: Robby found several rectangles without leaving his seat.
 - A. True
 - B. False

2. TRUE OR FALSE: The first rectangle Robby found was the top of his desk.
 - A. True
 - B. False

3. Which of these rectangles did Robby not find in the first classroom?
 - A. books
 - B. desk top
 - C. chalk boards
 - D. lunch table

4. Which of these was not a class or room where Robby looked for rectangles?
 - A. art class
 - B. music class
 - C. gym class
 - D. the lunch room

5. Which of these was NOT a rectangle that Robby found?
 - A. the walls
 - B. the windows
 - C. the ceiling tiles
 - D. the floor tiles

Where can I see Rectangles?

Use the information in the story to answer the questions below.

1. TRUE OR FALSE: Robby found several rectangles without leaving his seat.

A. True

B. False

2. TRUE OR FALSE: The first rectangle Robby found was the top of his desk.

A. True

B. False

3. Which of these rectangles did Robby not find in the first classroom?

A. books

B. desk top

C. chalk boards

D. lunch table

4. Which of these was not a class or room where Robby looked for rectangles?

A. art class

B. music class

C. gym class

D. the lunch room

5. Which of these was NOT a rectangle that Robby found?

A. the walls

B. the windows

C. the ceiling tiles

D. the floor tiles
