

Adjective Song

Music and Lyrics by: Have Fun Teaching

An Adjective, describes a person, place, or thing.
It tells about a Noun.
It's the part of speech
That modifies a Noun to make it unique.

An Adjective is used before or after a Noun
To give us more information.
They describe what we can
See, hear, taste, touch, and smell

Adjectives use all five senses
Adjectives describe Nouns we put in sentences.
