

# Octagon Song

Music and Lyrics by: Have Fun Teaching

An octagon is a shape  
That has eight sides  
It is a polygon made up of eight connecting lines  
An octagon is a shape  
That has eight sides  
It is a polygon made up of eight connecting lines

Draw an octagon up in the air (2x)  
Draw a small, small octagon up in the air (4x)  
Draw a big, big octagon up in the air (4x)

An octagon is a shape  
That has eight sides  
It is a polygon made up of eight connecting lines  
An octagon is a shape  
That has eight sides  
It is a polygon made up of eight connecting lines

Walk in the shape of an octagon (4x)

An octagon is a shape  
That has eight sides  
It is a polygon made up of eight connecting lines  
An octagon is a shape  
That has eight sides  
It is a polygon made up of eight connecting lines
