

Pentagon Song

Music and Lyrics by: Have Fun Teaching

A pentagon is a shape
That has five sides
It is a polygon made up of five connecting lines
A pentagon is a shape
That has five sides
It is a polygon made up of five connecting lines

Draw a pentagon up in the air (2x)
Draw a small, small pentagon up in the air (4x)
Draw a big, big pentagon up in the air (4x)

A pentagon is a shape
That has five sides
It is a polygon made up of five connecting lines
A pentagon is a shape
That has five sides
It is a polygon made up of five connecting lines

Walk in the shape of a pentagon (4x)

A pentagon is a shape
That has five sides
It is a polygon made up of five connecting lines
A pentagon is a shape
That has five sides
It is a polygon made up of five connecting lines
