

Planets Song

Music and Lyrics by: Have Fun Teaching

Mercury is the closest planet to the sun
Venus comes next it's the hottest one
Earth comes third the only life that we know
Mars has the largest canyon and volcano

Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune

The gassy planet Jupiter, the largest you will find
Saturn has rings around the outside
Uranus is funny 'cause it spins on its side
Neptune looks blue, the coldest of its kind

Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune

Okay get ready
We're gonna say all the planets really, really, really fast
Can you keep up?
We're gonna say all the planets from the first to the last

Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune
