A polygon is a shape with lines that connect
The number of sides tells us the name of the shape
A polygon is a shape with lines that connect
The number of sides tells us the name of the shape

Draw a triangle up in the air – 1, 2, 3
Draw a quadrilateral up in the air – 1, 2, 3, 4
Draw a pentagon up in the air – 1, 2, 3, 4, 5
Draw a hexagon up in the air – 1, 2, 3, 4, 5, 6
Draw a heptagon up in the air – 1, 2, 3, 4, 5, 6, 7
Draw an octagon up in the air – 1, 2, 3, 4, 5, 6, 7, 8
Draw a nonagon up in the air – 1, 2, 3, 4, 5, 6, 7, 8, 9
Draw a decagon up in the air – 1, 2, 3, 4, 5, 6, 7, 8, 9, 10

A polygon is a shape with lines that connect
The number of sides tells us the name of the shape
A polygon is a shape with lines that connect
